To Whom It May Concern:

For the past two years I have had the great pleasure in getting to know and also working with Steve Shawhan from Alliance Technologies. I have had the chance to work with Steve on two particularly large projects for my company Goalsetter Systems Inc. One project being the development and creation of our Ecommerce website, GoalsetterDirect.com, and the other being a complete redesign of our corporate website GoalsetterSystems.com.

On these two projects I acted as a project manager for Goalsetter and worked hand in hand with the Alliance Technologies Team that included Steve. Steve has great communication skills and was very easy to work with. There were many instances where I would have to contact Steve directly either via email or phone, and I would always receive a prompt timely response to my request. I've always felt in my dealings with Steve that my issues and concerns regarding a project were taken seriously and with the utmost importance.

To summarize, Steve has an easy going personality that makes working with him very enjoyable and easy. His attention to detail should make any client or coworker comfortable in the results they will receive. I would have no reservations in giving Steve my highest recommendation. It has been a pleasure and truly an honor to have conducted business, but also developed a friendship, with him.

Jim Barclay

A handwritten signature in blue ink that reads "Jim Barclay". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
